

COMBY 3500

Cleaning and sanitizing work can be incredibly enhanced with the use of steam, which - in addition - guarantees considerable savings on the consumption of water and detergents.

COMBY 3500 is a single-phase steam generator ideal for professional use, with a robust stainless-steel body. The machine is equipped with a "suction" function. Such technology, called Dry-Master, allows the operator to vacuum and dry-up perfectly the surface treated with steam. In addition, the machine's exclusive Infini-Vac system offers the possibility to adjust the suction power to obtain an even better cleaning result. The boiler has a capacity of 3.5 liters, which develops 8 bar of pressure thanks to a pair of heating elements of 3400 W in total. The boiler is equipped with the exclusive Non-Stop System technology, which facilitates the continuous supply of water within the same.

Thanks to our exclusive Dose-Master technology (from 1 to 32 levels), the electronic management of the "steam / detergent" mixture allows you to mix the ideal quantity of solution with steam, thus avoiding any waste. In addition, the exclusive Hydro-Jet system enhances cleaning by generating flows of wet steam, thus facilitate the rinsing of the surfaces being treated.

Our exclusive Flow-Master technology makes it very easy to manage steam and allows to decrease or increase its flow according to real needs. Comby 3500, moreover, is a very safe product: our Intelli-Boiler system automatically turns off the machine in case of emergency. Comby 3500 is a very popular steam generator that guarantees the complete cleaning of a wide range of surfaces in a versatile and ecological way. Robust and compact, it acts as a sanitizer, degreaser, and deodorant, fighting even the most stubborn stains. Furthermore, it facilitates the elimination of bacteria and molds.

TECHNICAL FEATURES

Model	COMBY 3500	Temperature Max	180 °C
Power Supply	220V-240V	Steam Production	125 g/min
Max Power	3600 W	Refill Tank	5 L
Boiler Power	3400 W	Detergent Tank	5 L
Boiler Capacity	3,5 L	Vacuum Power	1200 W
Pressure	8 BAR	Body	STAINLESS STEEL
